QUALITY IS MORE THAN OUR NAME.
IT'S OUR PROMISE.

Your home says a lot about you. So when you choose cabinetry, it should reflect your personal style and commitment to quality. For over 40 years, QualityCabinets™ has been living up to our promise of quality. Today, that means we offer the finest cabinetry, available in a beautiful array of styles and colors to fit your budget. We stand behind everything we sell, too, with a 10-year limited warranty. Translation? With QualityCabinets, you'll enjoy a look that fits your style for many years to come. That's our promise.

GLAZES OR ACCENTS

Depending on the style of the cabinetry, we offer two different glaze options as part of the finishing process. Traditional glaze is used on select full overlay door styles.

For this option, we use the standard finishing process, then apply glaze by hand to the front of the doors and drawers creating hang up in the corner areas and in profiled recesses.

An accent glaze is used on select standard (or partial) overlay door styles. The door is finished, then the sealer and topcoat applied, followed by the hand applied accent glaze to the doors and drawer fronts.

Actual colors may vary slightly due to printing limitations. To see the full range of products visit QualityCabinets.com.

3

WOOD TYPE

**MAPLE**

Maple is versatile and takes color quite well, making it a very popular choice. It has a fine uniform grain and, overall, is a very consistent wood type.

**CHERRY**

Cherry has a fine-to-medium grain and is moderately hard and heavy. While it often has a deep color, it can vary depending upon your choice of stain.

**OAK**

Oak is a heavy, hard wood, that has a coarse, noticeable grain. It provides dramatic lines that can play quite differently depending on the finish color chosen.

4

OVERLAY

**FULL OVERLAY**

Overlay is the amount covered by the cabinet door. A full overlay draws attention to the door and drawer design, creating a more seamless look.

**PARTIAL OVERLAY**

A partial overlay usually reveals about one inch of face frame around the door. A partial overlay creates an attractive, traditional look that complements a variety of room designs. Partial overlays usually cost less than full overlays.

5

VENEER OR SOLID

**VENEER**

A veneer is a thin piece of wood which is attached with glue to a supporting board. Veneered components are more uniform in finish and grain, and commonly used as the material for the center panel of a door.

**SOLID**

A door with a solid wood center panel is comprised of boards that are joined or glued together to form the width of the center panel. Because natural woods have variations in color and grain pattern from board to board, these variations will be apparent in a solid wood door.

THE QUALITYCABINETS™ CHOICE

STANDARD CONSTRUCTION

At QualityCabinets, we are true to our name. It's our mission to build cabinetry of the highest quality that is as beautiful as it is durable. From the materials we use to the people who craft our cabinetry, we are committed to the highest standards in everything we build. We meet or exceed Kitchen Cabinet Manufacturers Association (KCMA) Standards, and even have our own testing facilities. For complete construction information, visit QualityCabinets.com.

QualityCabinets™ offers a 10-Year Limited Warranty from the date of purchase. Full warranty details are available at www.QualityCabinets.com.

Wall Cabinet

Durable construction that is built to work and last. $\frac{3}{8}$ "-thick end panels attached with wood-to-wood glue and staples. Wall cabinets come with a standard, 6-way adjustable hinge to help provide the best door alignment.

Base Cabinet

An attractive, finished look with $\frac{3}{8}$ "-thick, industrial-grade, engineered wood end panels. Sturdy shelves that stand up over time. Made from $\frac{5}{8}$ " thick engineered wood. Drawer cores are made of $\frac{1}{2}$ " engineered wood.

CONSTRUCTION UPGRADES

You can make a variety of upgrades that can help enhance your cabinetry.

Dovetail

Dovetails are the strongest of all joints. These two-part joints are constructed of interlocking wedge-shaped elements called pins and tails that resist the forces applied to the joint. This joint looks attractive, adding a special decorative quality to any cabinet.

Plywood End Panel Option
 Upgrade to 1/2" furniture grade plywood for added strength and an exceptional look.

All-Plywood Construction Option
 Upgrade further to include furniture grade plywood throughout the cabinet construction. Upgrade includes 1/2"-thick, furniture-grade plywood end panels.

ACCESSORIES

QualityCabinets offers a wide variety of accessories to create a highly-functional and beautiful space. Our accessories are easy to use, easy to clean and designed for every budget.

CoreGuard®
 This CoreGuard sink base cabinet is designed to protect against damage from unseen leaks and spills.

Base Deep Roll-Out Trays
 Roll-Out Trays are the perfect solution for pantry and base cabinets, providing quick and easy access to the entire cabinet and keeping everyday items well organized.

Base Filler Pull-Out
 Ideal for storing small bottled items or spices, a Base Filler Pull-Out is a smart alternative to a standard filler. This accessory features three adjustable, wood shelves for maximum flexibility.
